

# TA Professional Development Pathways

## Pathway 1 – Developing effective practice

A course that introduces the essential knowledge Teaching Assistants need to be effective in their role. We focus on strategies that will impact all children, with a particular focus on those who are disadvantaged and with SEND.

Our experienced leaders introduce staff to current research and support them to apply this to their practice through live, collaborative sessions and we offer opportunities for asynchronous reading and reflection using our popular workbooks.

At the end of three sessions your TAs will:

1. Understand how to work effectively with teachers and other professionals
2. Identify ways that they can develop learner independence
3. Be able to scaffold effectively through their interactions
4. Know how they can support learners' self-esteem and regulation

*Sessions will run  
weekly starting  
Weds 6th Nov 2024  
and concluding  
Weds 20th Nov 2024*

All sessions will take place virtually. The cost of each Pathway programme is £50 per delegate. Please contact [courses@compassps.uk](mailto:courses@compassps.uk) for more information.
